

EPP pneumatic pumping station construction

| Item | Part Name | Quantity |
|------|--|----------|
| 1 | Inlet well | 1 |
| 2 | External pipe retention tank | 1 |
| 3 | Working tank | 2 |
| 4 | Inlet chamber | 1 |
| 5 | Dry chamber of pumping station | 1 |
| 6 | Suppressor of decompressed air | 1 |
| 7 | Biofilter of decompressed air | 1 |
| 8 | Source of steering gas | 2 |
| 9 | Control valves | 1 |
| 10 | External technological container | 1 |
| 11 | Elbow check valve (energy efficient valve) | 2 |
| 12 | Vibration compensator | 2 |
| 13 | Clamp flange for the inlet valve | 1 |
| 14 | Knife gate valve | 1 |
| 15 | Pneumatic and control column | 2 |
| 16 | COMBI elbow check valve | 2 |
| 17 | Level sensor | 1 |
| 18 | Inspection window | 1 |
| 19 | Alarm sensor | 2 |
| 20 | Cut-off knife gate valves | 2 |
| 21 | Control sensor | 2 |
